

EDUCATION

BITS Pilani, Goa Campus

2024 – 2029

B.E. Computer Science + M.Sc. Economics

CGPA: 7.9/10

- Class XII (HSC): 83%
- Class X (ICSE): 95%

LEADERSHIP & EXPERIENCE

Captain, Team Grease Monkeys

SAE | ATV Racing & Vehicle Development

- Leading a 60+ student engineering team responsible for vehicle development, testing, and competition preparation.
- Building a hydrogen bi-fuel engine ATV for racing; BITS Goa's first hydrogen bi-fuel vehicle.
- Designed and maintained a sponsorship outreach sheet managing 500+ sponsor leads, tracking communication, and coordinating fundraising efforts; Raised sponsorship from TurboCam worth Rs.30,000.

Organizer, Around The Net

Campus-Wide Table Tennis Tournament

- Organized and executed a semester long tournament with 150+ registrations and 25 matches, managing scheduling, participant communication, logistics, and operations.
- Contributed to the tournament website, attracting 2,000+ visits.

Startup Operations & Web Development Intern

- Developing and maintaining the company website for an early-stage startup.
- Managing operations for a startup-led competition, coordinating participant communication, timelines, registrations, and event execution.

Co-Founder, Nevermind

E-commerce Venture (Dropshipping)

- Co-founded and operated an e-commerce clothing venture, managing supplier sourcing, website setup, customer support, inventory, order fulfillment, and finances.
- Generated approximately Rs.10,000 net profit across 50+ orders on Rs.25,000+ in revenue.

PROJECTS

Game Development

- *Snake & Pong*: Developed complete playable versions of Snake and Pong, implementing core gameplay mechanics, scoring systems, collision detection, and game state management.
- *Pacman Clone*: Built a functional Pacman clone featuring enemy AI behavior, pathfinding logic, score tracking, food-eating systems, and level progression.
- *Multiplayer Game-Slither.io Recreation*: Developed a multiplayer Slither.io-inspired game with real-time player interactions, collision handling, and dynamic growth mechanics.

Web Development

- Designed and engineered a dynamic competition platform for a tech startup, ensuring a seamless end-to-end user experience.
- Currently developing websites for Team Grease Monkeys and a startup-led competition.
- Working directly with stakeholders to gather requirements, manage feedback, and deliver features.

CO-CURRICULAR & EXTRA-CURRICULAR

- Captain, Team Grease Monkeys (SAE)
- Member, Development Society (Game Dev), BITS Goa
- Member, CTE, BITS Goa
- BITS Goa Athletics Team
- Codeforces Pupil (1200+ rating)

SKILLS

Operations: Project Coordination, Event Operations, Team Leadership, Stakeholder Management**Programming:** Python, C, C++, Java, JavaScript, C#**Tools:** Microsoft Excel, Unity, SolidWorks, Ansys, VS Code**AI:** Prompt Engineering, AI-Assisted Research, Workflow Automation, RAG systems
